**water resources management should be organized:**

**International  
Network  
Of Basin  
Organizations**

- 1) on the scale of local, national or transboundary basins of rivers, lakes and aquifers;**
- 2) based on integrated information systems, allowing knowledge on resources and their uses, polluting pressures, ecosystems and their functioning, the follow-up of their evolutions and risk assessment.**
- 3) based on management plans or master plans that define the medium and long-term objectives to be achieved;**

**A solution?**

**water resources management should be organized:**

**International  
Network  
Of Basin  
Organizations**

- 4) through the development of Programs of Measures and multiyear priority investments;
- 5) with the mobilization of specific financial resources, based on the « polluter-pays » principle and « user-pays » systems;
- 6) with the participation in decision-making of the concerned Governmental Administrations and local Authorities, the representatives of different categories of users and associations for environmental protection or of public interest.
