OVERCOMING THE IMPLEMENTATION CHALLENGES OF NATURE-BASED SOLUTIONS FOR ADAPTATION

**Mr. Olivier Thibault, General Director,
French Biodiversity Agency**

Climate change, water security and biodiversity loss

The Life ARTISAN project:

National action

- Stakeholder support
- Ressource centre

Regional Action

- Regional adaptation strategies
- Stakeholders network

10 pilot sites

Sites on water related issues (flooding, droughts, quantitative and qualitative management)

River restoration, wetlands, mangroves, rainwater infiltration, ecological engineering

Examples of NbS – leveraging biodiversity for climate resilience and water security

Planting « rain trees » in the city of Lyon (November 2021)
